Facts About Wool.

PROTECTIONISTS WAKE UP THE WRONG PASSENGER.

A Real Sheep Raiser Gives Congressman Burrows Some Heterodox Opinions.

The Tariff Enables Manufacturers to Depress the Price of Domestic Products.

The innovations of the projects of high protection over the placid wool on the free list by the Wilson bill finally illustrate the homely old English saw, "Great cry and little wool."

With a view to demonstrating, with all the painful particulars, the blue ruin which would overtake the wool grower as soon as the new tariff went into effect, a Wool-grower of wool growers sent out a circular to a number of sheep farmers asking them to write their answers to a series of questions and send them to Hon. Julius C. Burrows, the Michigan apostle of McKinley. Incidentally, it was intended to the woolgrowers in this city, circular that they would do well to show, in their answers to the questions submitted, how greatly they had thriven and prospered under the present altitudinal tariff rates.

One of the sheep farmers thus called upon to supply the commission of facts for the artillery of debate now to be unnumbered on the floors of congress and trained upon the Wilson bill responds in an open letter, printed in the New York World. This letter contains a mass of useful information which, though not at all what Hon. Julius C. Burrows and his associates on the opposite side of congress will care to use in their coming speeches, is of timely interest to the general public, who only want to get at the truth about these tariff problems and are not concerned as to whose pet theories are damaged thereby.

This particular woolgrower draws his instructive letter from Carleton, Wyo. Replying to the request that he should tell Mr. Burrows just why wool cannot be grown as cheaply in this country as in Australia or other foreign countries, he says, "There is no reason why we cannot grow wool as cheap, if not cheaper, here than at any other place in the world." In response to the question, "What did wool net you on the farm or ranch during the past season in comparison with previous ones?" Mr. Burrows gets some most discouraging disclosures. This Wyoming woolgrower states that he netted 10 to 15 per cent, that he netted 10 to 15 per cent, that the clip of 1893 netted him 14 cents per pound, and that the clip of 1894, as before the McKinley bill went into effect, netted him the best price of all—17 cents per pound. This fact, quite unavailable as it is for high protectionist orators, is clinched by the further testimony of this candid Wyoming woolgrower, "My experience is that, during the past season is the worst I have had, in spite of the fact that there is a duty on the foreign wool that amounts to more than the value of mine."

Invited by another of these questions to state how he could overcome the advantage of the foreign woolgrowers if the McKinley duty of 11 cents per pound was removed, this plain spoken sheep farmer replies: "The American has the advantage of the foreigner in woolgrowing. And wool sells for less under the McKinley law than ever before." And to still another question, intended to lead to a glorification of the McKinley wool duties, he says: "If by taking every man 75 cents worth of a suit of clothes we could get 11 cents extra for our wool, we would not kick about it, whether the men who would or not." But the fact is, he insists, that he gets much less for his wool now than before the McKinley act was passed.

Very significant are the closing sentences of this notable reply to Mr. Burrows' questions, which Mr. Burrows, we may be sure, will not care to quote. Says the honest sheep farmer of Wyoming: "In assuming that the whole business I have come to the conclusion that we have nothing to hope for from protection, as the duty on foreign wool is more than the price of American wool. We have nothing to fear from the foreign woolgrower. The cause of the depression in the wool business is that the manufacturers and commission men have taken advantage of the tariff agitation and general business depression to put down prices, so that they can get wool for their own price."

There is of course quite another standpoint from which free wool can and will be justified—namely, the standpoint of the woolen clothing and carpet manufacturers, whose business will be built up by it, and the yet broader standpoint of the general mass of consumers, whose clothing and carpets will be thereby reduced in cost. It is nevertheless reassuring to the friends of true tariff reform, who do not desire to injure any American industry in the process of reducing and equalizing tariff burdens, to learn from the testimony of the men who know best—the woolgrowers themselves—that McKinley duties were really not really helped them at all, and that the transfer of wool to the free list will not hurt them; moreover, that it will liberate them from the grip of the protectionists, who are now able to combine, under the shelter of the high tariff on foreign wool, to dictate low prices for the American clip.—Baltimore Sun.

Too Severe a Test.

Congressman Hart, who is himself a large manufacturer, is of the opinion that the direct protection of the manufacturers is more apt to bring to the unwary wage earner with it. If it were not and manufacturers were really being injured by proposed tariff reductions, the effect would be seen in lower prices for manufactured goods as well as in wage reductions. The present party will not stand this test.

WAGES AND THE TARIFF.

Protective duties have no influence on the wages of labor.

The McKinleyites assert that the higher the duty the higher the wages of American labor, and the lower the duty the lower the wages. This is untrue. Wages are highest in unprotected industries. Wages in the same industries, under the same tariff, vary greatly in the different states of the Union. Therefore when they threaten to close their factories or to lower wages because their protective duty is to be reduced by the Wilson bill they are simply the unskilled, their employees for votes or trying to frighten congress.

There is only one way in which the price of anything can be increased by the tariff. That is by limiting its supply by placing a tax or duty on it. There is no duty on labor. Men are on the free list. Foreigners compete on even terms with natives. For many years the protected manufacturers imported the cheapest labor they could find in Europe. Some of them do it now, violating the contract labor law. No manufacturer pays higher wages than he is obliged to in the unprotected labor market.

It does not follow that higher rates of wages mean greater cost of labor. As a rule, higher wages mean cheap products, because high priced men are much more efficient than low priced men. Secretary Blaine reported that this was so as to cotton operatives. American workmen are more skillful, intelligent and enterprising than foreign workmen, and American machinery is better. The average cost of a ton of paper in an American mill is \$8.57; in the English mill it is \$11.46, though wages are higher here.

In many cases under the McKinley law the protection on an American product is greater than all the wages or labor cost. The labor in mining a ton of coal costs from 60 to 70 cents; the mine owner is protected by a tax of 75 cents plus the cost of transporting the foreign coal.

Wages do not go up with increased duties. They did not in 1890. In 1890 the average tariff tax was 24 per cent; the average labor cost in protected articles was 23 per cent of the whole cost of the product. In 1890 the tax had risen to 46 per cent and labor cost had fallen to 22 per cent. Today the tax is 46 per cent and the labor cost probably not above 25.

The wage cutting and mill closing of the ironopolis are simply repetitions of their campaign scare.—New York World.

All Valorem or Democratic Duties.

Under an ad valorem tariff our customers must watch for undercuts and nation brands. Under specific duties the people cannot escape being robbed when they buy goods or not.

Specific duties group a number of articles together and charge as much upon the cheaper as upon the more costly. The poor family gets the worst of the deal right along.

While the lack of specific duties is framed, the lobbyist is on hand to have classifications arranged so that his protected infant shall be able to compete with the foreigner on a level of apparently low rates on articles which are little used or which need no protection. While he changes the style of packing and employ various arts to slip into the most advantageous classifications. Sometimes they succeed often they fail. But when they do succeed they make fortunes.

While the ad valorem system may permit John Wamsucker to import adorned ribbons and trappings, the specific system is a work for the nation. There is some risk of ruin, increasing rapidly as the rate is made higher and diminishing rapidly as it is reformed, while the other is a certain fraud, constantly acting.

There seems to be no room for doubt that the business men of the country, irrespective of party, are anxious to have the bill passed and put in operation as soon as may be consistent with proper deliberation and attention to business.

How Much Rain Will Fall?

The Weekly Courier-Journal has struck a popular note in its weather guessing contest. A wonderful amount of interest was taken in its offer of \$1,000 for the closest guesses to the coldest day and temperature during February, at Louisville and made the information was gathered by subscribers on the subject. This contest has just been decided, there being twenty-eight lucky guessers. The weekly Courier-Journal now makes another offer on the same line. For the closest guesses to the amount of rain that will fall at Louisville during the month of May, the Weekly Courier-Journal will give \$1,000.

This money will be divided into nine ten presents—one of \$600, two of \$300 each, two of \$250 each, four of \$25 each, and ten of \$10 each. Each guess must be accompanied by \$1, to pay for one year's subscription to the Weekly Courier-Journal, the best Democratic paper published. The rainfall is scientifically measured, to the hundredth part of an inch. The heaviest rain-fall in May during the past twenty years was seven inches and forty-six hundredths of an inch. The lightest was one inch even. The measurements are made by the Government officials of the Weather Bureau at Louisville. Sample copies of the paper with full particulars of the contest, will be sent free to any address. Write at once, as under no circumstances will any guesses be received after April 30th. Address: Weekly Courier-Journal, Louisville, Ky.

money of detail. If the Republicans politicians really think that the bill will be injurious to the country, they must think it will be injurious to the party responsible for it. Therefore they ought to be entirely willing to see it put in operation as soon as possible, so that its effects might be seen before the congressional elections next November. Hence there is ground for the hope that they will make no factions opposition. There is even ground for the hope that they will not lend their aid to any faction of the majority which may attempt to emasculate the bill.—Chicago Herald.

The Reform Club's Opinion. The Reform club has adopted the following resolutions concerning the Wilson tariff bill:

Resolved, That this committee, although of opinion that the duties imposed by the Wilson bill are in many cases much too high and will frequently not produce as large a revenue as could otherwise be secured, nevertheless heartily approves of the reduction of taxes thereby provided for and favors the passage of the bill, with such amendments reducing rates as may be desirable.

Resolved, That, for the purpose of carrying out the provisions of the Wilson tariff bill, a committee of five be appointed by the club—with liberty to add to their number—who shall have power to take any measures which may seem to them expedient for the purpose of promoting the enactment of the new tariff bill, with the proper amendments.

The Chicago Herald (Ind.) fears that at the general rate of progress the new tariff law will not go into effect before September next. "This is not an agreeable prospect for the country or the Democratic party," it says.

SUFFERING OFF THE MAIN COAST.

Hundreds of fishermen on Outlying Islands on the verge of starvation.

Handfuls of fishermen are on the verge of starvation and suffering for food and want of proper clothing within 50 miles of Portland. There are hundreds of islands in Casco bay and scattered along the coast between Portland and the Kennebec river. These are for the most part inhabited by fishermen who depend entirely upon their nets and seines for food. During the past few weeks these people have not been able to set any nets on account of the frequent and severe storms which have swept the coast. The fishermen live out of the line of coasters and are visited only at infrequent intervals by fishing smacks and men-of-war.

Malaga Island, where most of the suffering is found, is situated about a mile and a half from the coast and is perhaps three miles in circumference. Upon this island are three huts built of logs and bark, and these huts are crowded with 35 to 40 people. They were visited by the crew of a fishing smack which was obliged to leave the island from the storm which blew from the north. The story as told by one of the crew here shows that unless help arrives to these people soon they will starve to death. When the smack was near the island, the half starved people rushed down to the beach and set up a howl of joy. They were starved for the most part and poorly clothed at the best. Some of the women were almost nude, and several children have died from exposure and want of proper food. The huts are said to be in a filthy condition and afford but scant shelter from the bitter cold.

The smack had but little food on board, having met a poor haul of fish. The crew gave the islanders such food as they could spare and almost robbed themselves of clothing to assist the islanders. The men on the island say that they were not able to obtain supplies for the winter, and when the storms prevented their setting their nets they were left with nothing to eat. The coast at this point is thinly settled with fishermen, who are reported to be as badly off as the islanders. Yarmouth, Bear and Basket islands are said to be as badly off as the Malaga islanders.—Portland Cor. Boston Herald.

Utilizing Atmospheric Effects. Delicate taste prevails in the architecture of the California Midwinter fair, and an effort has been to make the tribute and arrange them that the peculiar atmospheric effects of the climate shall be utilized to enhance the harmony and increase the beauty. Warm tones are not necessary, and the darkness of the background afforded by the bluish black foliage is a magnificent setting. Much good has been used.—San Francisco Argonaut.

London is talking about the adoption of an interesting winter law, which has been popular for several seasons in Brussels. Tutury in the case of Rev. George Dennis against the Pennsylvania Railroad Company returned a verdict for the plaintiff, giving him \$5,000 damages.

This good old county of Breckinridge is covered all over with plant-beds and live, fighting Democrats, with just enough Republicans to make it interesting.

Tut Democratic candidates for Congress in the Second District are having a tight fight for the nomination, Judge S. B. Vance sounds like a winner with Polk Lewis in a close race.

AFTER the brick plants all get in full operation, the street-corner Republican politicians of Cloverport, will have to change their thimble, "Cleveland hard" will not longer be of any effect.

CHAMBERS Frank Haswell is already claiming a walk over for his party and says his ticket will win by a majority of 250 in November. We admire Mr. Haswell's claiming qualities, if nothing else.

The official count of the Democratic primary did not change the figures we gave last week except in one instance. Breckinridge's plurality was 112 instead of 132. The total number of ballots cast was 1,053.

AND now comes the information that Jack Brown will be Adjutant General of Kentucky. Judge Wickliffe will tender his resignation in a few days, take effect May 1st, and Governor Brown will respond: Thanks.

TODAY, Mrs. Richardson has been appointed by Governor Brown to the position of chief book-keeper at the Louisville Internal Revenue office. The position pays a salary of \$1,800 a year, and Mr. Richardson has our congratulations.

OCT in Kansas, where the women are allowed to vote, it is a terrible fact that single ladies, under thirty years of age, rarely exercise the privilege. No blushing damsel who is playing herself for twenty, wants it to be on record that she voted ten years ago.

It is here to say one thing that the people should know about in this country, it is the true principles of government as laid down by the Sage of Monticello, Thomas Jefferson.

DEAFNESS Cannot be Cured. By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running sound in the hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh; which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

Judge Wilcox closed the argument in the famous trial with these words: "I advise you, as my last words, to lodge him, hold him, and hold him, the world may be warned, and justice will cry amen and amen."

Judge Bradley's instructions to the jury were more concise than in the plaintiff's favor than was expected. The jury retired at 3:07 o'clock and appeared at 4:34 o'clock. The foreman said: We the jury find for the plaintiff and award her damages in the sum of \$15,000. Out Breckinridge appeared at once for a new trial, and the motion is yet to be passed on.

In Memoriam. I heard a voice from heaven saying "write." Blinded are the dead who die in the Lord.

Fell asleep Sunday morning April 1, 1894, our dear friend and sister, Miss Kinschloe, eldest child of Judge Jesse W. Kinschloe, died at her home, first wife, Dickson's prayer "Lord, keep my memory green" need not to have been uttered by her. The impress of her life and example upon this world for good, like a beacon light, will be remembered by her beautiful self-sacrifice and love, will go on down the ages accumulating as they roll, until when the great day comes, the radiance of the crown that will cast at her Saviour's feet will be wonderful in its beauty. "Her influence is upon her kind." One says, "there are nature in which if they love us, we seem to have a sort of baptism or consecration. They kind as purity and rectitude by their pure belief about us." Such a nature was here. No calamity, nor gossip could flourish in her presence. All that was ugly and false shrank away when her pure sweet eyes looked into the face of the speaker. "Clearly thinketh no evil."

In her early girlhood she was converted at a woman's prayer meeting during a prayer led by Mrs. Maria Barnett, and she has remained a true saint to this day. For many years Miss Kinschloe has been a faithful member of the M. E. church, South, devoted and loyal. In 1881 a deeper consecration led her to the great pasture and beside the still waters of her Father's love and she rested in the secret of his presence—she abode under the shadow of the Almighty and today as she walks with Jesus, face to face, we feel she is no stranger to this Redeemer. For years she has been seeking this city which hath foundations—whose builder and maker is God. To a friend who said over her for a last good-bye she said, "I am almost home and it is glorious!"

After some beautifully touching remarks and prayer by her pastor, Rev. S. K. Breeding, and some sweet songs from the house of her sister, Mrs. Clayton Board, she was laid to rest Sunday, April 1, 1894, at 10:30 a.m. in the cemetery near the town of Ball Town. Her sweet April sunlight was as we sang "Rock of Ages, Clasp me now."

Mr. and Mrs. Wm. Rhodes were in Paynesville last week.

Father Herbut will be here this week to instruct the children of his church.

So many of our Garrett and Big Springs friends have been to see Mr. (Trinidad).

Mrs. Stokes and little daughter, Bertie, of Louisville, attended Linnie Moreman's birthday party.

Mr. Tom Robinson came down Sunday to visit his sisters, Medes and S. C. Malin and Weldon Barnett.

Mr. Wm. Sebastian and Mrs. S. C. Malin are having their residences remodeled and otherwise improved.

Miss Sophia Rieckhoff is visiting her aunt, J. C. Casper, at home.

Mrs. Johnson and son, Frank, from Colorado, spent a few days last week with Mrs. James Fairleigh and Mr. Albert Johnson.

Mrs. Blanche Fontaine has returned from the city with all the latest novelties and is at your service with her usual grace of manner.

Mrs. J. Roberts and Mrs. Carl Richardson were in town last Friday. Mrs. Roberts has been very much indisposed and is looking quite thin.

Mrs. Cherry has had mumps and is still feeling the effects. He was not able to preach last Sunday, much to the disappointment of his congregation.

I hear no after pieces from the late Democratic primary. Everything is placed a general satisfaction reigns. "Support this nominee" is the motto.

Our young friend, M. H. Richardson has taken into himself a mate in the person of Miss Kate Burkhardt. They will reside in Louisville and we extend good wishes.

I appreciated Sirico's kindly recognition of my sorrow, and will say that I hope he may ever continue his original sensible letters for ever he may roam. Thank good, common sense in every line and a fearless spirit.

Col. Will S. Hayes, of "Mollie Darr" fame, has decided not to dabble in politics. He says "one cannot be a politician and a Christian." Wonder if he had gotten the position of Supervising Inspector of Steamboats, if he would have come to a like conclusion?

Linnie Moreman had a birthday party last Saturday from 12 to 10 in the afternoon. Swings were all over the yard, games were enjoyed indoors and outdoors. Music and a good time generally. Mrs. Moreman served delicious food and her home little proved quite a number of beautiful presents.

The ladies of the M. E. church have organized a sewing society. They had a large attendance at the residence of Mrs. James Lewis last week and will meet next Thursday at Mrs. John Franks'. A carpet is being made, the second one the society has made. The Methodist church is ready for the carpet and rug sale.

A beautiful and speaks volumes for the building committee, the ladies and the enterprise of the little town. We have three pretty, modern churches. We need a graded school. Churches and schools tell the story for a community's enterprise; its progressive spirit; its ideal are all portrayed in those institutions more than we will sometimes admit. But it's a patent fact nevertheless.

BETTER TIMES.

Are Brazony Staring Cloverport in the Face and Things Will Move.

All The Brick Works Will Be in Active Operation Within The Next Few Days

MAY THE WORK PROSPER.

The present outlook, in regard to the operation of our brick plants, is exceedingly flattering, and it will only be a few days 'till all of them will be in active operation.

THE ACME.

A party of the Acme directors came down from Louisville one day last week and inspected their immense establishment. The company consists of the following persons: G. H. Hike, J. C. Loomis, Fred Hart, W. T. Cope and Louis Sommers.

A news representative interviewed Mr. Sommers, the general superintendent and received the following information: "The object of our visit is to inspect our works and take necessary steps for an early resumption of operations. We are out of brick, the last one is sold, our yards are clean and we have orders for more. We will start men to work to-morrow, cleaning up and making some necessary repairs, and it is our intention to start the works on full time within a few days. We will not without ceasing, the weather permitting. We are in a better shape now, financially and every other way, than we have ever been since we started the works."

A force of men have been at work for several days getting the works in shape and the start will probably be made some day next week.

PARO'S.

The Patton Brick Plant is making preparations to start next Monday, the 23rd inst. Men are being contracted for, the kiln and yard are being placed in the proper order, and the wheels will probably start to rolling on that date.

THE "OLD FASHIONED."

The "Old Fashioned," while it is making no particular stir about it, may be the first to get in active operation. Men are at work, actively putting things into the proper shape for running, and the works may start one day this week. Twenty-seven car loads of brick were sold by this company last week, and the stock in their yards is being rapidly cleared out.

When these works all get started, the period of close times for Cloverport will be over. When the black smoke rises from the huge stacks, and the whistles blow, and the machinery hums, everything else in Cloverport hushes in command. When the wheels turn at the brick works every business in Cloverport prospers. Men wear smiles instead of frowns, and the pinch of hunger no longer leaves its mark on the faces of mothers and babies. The slow and swagging walk of the laborer will be replaced by the light, quick step of the prosperous laborer, as with dinner pail in hand, he rapidly traverses the distance between his work and home. Merchants and business men will no longer wear the wrinkles of discontent, and the calamity howler will take to the woods. Speed the prosperous day.

IRVINGTON.

Mr. Eversy Protheroe visited "Belle View" Sunday.

Mr. G. W. Brown was on the sick list all of last week.

Meers, Edgar Lewis and Will Williams were guests at Mrs. Munford's Thursday evening.

CROSSED THE RIVER.

C. S. Grinnell Dies at His Home in Brandenburg, Surrounded By His Friends.

The many friends of Charles S. Grinnell will be grieved to hear that he died at his home in Brandenburg, Sunday the 15th inst., at 2 o'clock p. m.

Mr. Grinnell was fifty-one years of age and had been a resident of Meade county for twenty years. In 1866 he was married to the present Mrs. Grinnell and the union has since been blessed with children, six of whom are living.

He professed religion and joined the Catholic church, the week before he died. He was a great sufferer, but patient and resigned to death. He was buried from the Catholic church in Brandenburg on Monday, and a large concourse of friends followed him to his resting place. The pall bearers were his old pupils—Trot, T. J. McAllister, Dr. K. J. Dowden, Messrs. Albert Moreman, D. W. Lewis, James Rickard and Geo. Casper. Beautiful caskets of Marcelline Will roses and sunflowers were sent by friends.

Mr. Grinnell had served as Deputy County Clerk, of Meade county, for nearly four years, and was a very efficient officer. He taught school in Meade, Breckenridge and Harlan counties for fifteen years, and has much to recommend him to his friends.

His death is a sad blow to his estimable wife and loving children, and they have the heartfelt sympathy of many friends.

LODIBURG.

Mr. John Avitt visited his son at Irvington last Saturday.

M. W. Harlin, who has been in poor health for the past three months, is slowly improving.

Mr. Basty has returned home after a pleasant visit of a week among her relatives near Roetta.

W. H. Gibson and Jennie Payne slipped at a kitchen table Sunday and will go up this week to sell it.

Mr. Corwell came down Sunday and spent the day gathering mineral from our local fields and getting it bottled.

Mr. T. J. Jolly, of Bewleyville, and J. R. Jolly, of Sample, were visiting their sister, Mrs. Nancy Harlin, last week.

Mrs. W. H. Gibson and Mrs. A. M. Harlin purchased from Mrs. T. J. Jolly two dozen brown turkey eggs at \$1.00 per dozen.

The remains of Mr. Marvel Jordan were interred in the Walnut Grove cemetery, April 14th. He was an old and respectable citizen and will be sadly missed among his relatives and friends.

Dr. Taylor was not aware of the fact that his best girl would be at Raymond the second Sunday or he certainly would not have gone to Harlanburg on that particular day.

Hurrah for Sirocco. Poor Babbie don't you really think that our babies too much some times. We happen usually see alive but not exactly, as other dominations see, especially those who claim holy sanctification. We believe in sanctification as a progressive work, that it is begun in regeneration and that it is carried on the hearts of believers by the presence and power of the Holy Spirit, the healer and comforter, in the continual use of the appointed means, especially the word of God, and the sacraments, self denial, watchfulness and prayer. I am not taking up this subject for an argument, for I think it out of a lady's place to argue about religion or politics.

Another is that we're proud of our goods and like to show them off—Come in when you are in Cloverport and talk the matter over. We can do you good.

Business dull.

Mr. Burton is here looking after the store business.

Mrs. Pete Sherron has been laid up for several days with a bad cold.

Dad Miller and Walter Wilson, of Jolly's, passed through Thursday.

Hello, Jolly, how about that wedding that was going to be but failed to be.

Taylor (late, son of Milton Tate, was visiting Hilary McGary's boys last Sunday.

Mrs. Winchell, we are glad to say, is much better, and we hope she will soon be up again.

James Durham and daughter, Miss Ida, went to Glendale the 12th to visit son and brother, H. Durham.

Allie Baysinger and James Durrham's boys are getting up a fishing club. All goes over and stays all day every Sunday.

Miss Bee Miller returned home Wednesday from Harlanburg, where she has been visiting friends and relatives for the past two weeks.

Henry Shrivewerter, our local spring man, was here joking the last Thursday. Henry is a good fellow and a hustling Democrat.

There are lots of tobacco around here, and we would be glad if some one would come in and buy it. The farmers are anxious to sell.

The Primary is a thing of the past and we can say that the ticket is a good one, and there is no reason why every Democrat in the county cannot vote for it. So lets give the boys a big majority.

To take Glendale's items as a criticism. There must be more courting and marrying going on in that neighborhood than in any other place in the county. There are some people however, that can't handle but one thing at a time. Give us some news.

Kirk is a business place situated four and a half miles from Harlanburg, on the L. & H. W. railroad and on the dividing ridge between Rough river and the Ohio river. The land here is not only productive but it lays well and on each side of the ridge there are beautiful farms laying back in good repair, making this a beautiful place by nature. Added to this in two or three miles lies the beautiful and productive valley known as the Mattiny neighborhood, in a high state of cultivation, making this the center of one of the best bodies of farming lands in the county. We are sorry to say agriculture and its followers have been so neglected by their representatives that even on these lands farming is not profitable.

Crop Report.

The Commissioner of Agriculture Receives Conflicting Information.

As to the Amount of Damage Done to the Farming Interests by the Recent Freezes.

THINGS MAY COME OUT.

The reports from the correspondents for the month of March are very large, and differ very much, and all that can be written before the freeze report the agricultural interests of the country in a very flourishing condition; all farm work well advanced; the corn is ready to plant, corn, wheat, rye, oats and barley; all looking as well as any one can recollect to have seen them; grasses of all kinds were far advanced, clover about ready for grazing; gardens were being planted; in fact every kind of vegetation indicated that winter was over. Those who were written after the freeze were very different. The condition of the wheat crop is somewhat uncertain; all correspondents write that the early snow frost, "that which was joining," has been killed, but that it will not make much more wheat, and the late snow which was considerably damaged, and looks very badly frost-burned. A few warm days will tell all—that it is killed. I will not undertake to make a percent of its present condition of the crop, for to add up all my reports, "those written before the freeze and those written after," will not give a correct statement. I will therefore wait another month, as there are a number of good farmers who say that they cannot tell the extent of the damage until after the warm rains. The condition of the rye and barley crop is very similar to that of wheat; rye being a much harder crop is not damaged so much, but as they were growing rapidly and so full of grain, the freeze coming so suddenly, some think that they have all suffered alike.

Nearly all of the correspondents report young clover all killed. This will be a very heavy loss to the farmers, as the seed was very high. A correspondent from Clark county writes "Young clover all killed, and old clover fields that were up and low, and small like clover lay spilling in summer."

A correspondent from Stanford, Lincoln county, writes: "Our crop generally killed by the late freeze; many are reported. This is the report of the correspondents of the regard to the crop. I would advise not to be too eager to sow where the oats are not lifted out of the ground by the late freeze, but to wait for a warm spring. I have examined some that I think will come again; where they were well covered they likely stand the freeze better. There was one over an apple crop. Nearly every correspondent writes: "Fruit of all kinds killed, except some late apples." I think the grapes were not all killed, nor all the strawberries and raspberries. The prevailing impression among some fruit men is that the peach trees are all killed; some think that all except the one and two-year-old trees.

GARDENS. So many men think that winter was over, and planted a number of vegetables, peas, onions, beets, early corn, all of which they have lost, and will be compelled to plant over again. Onions that were planted last fall were bit down by the freeze, and the most of the which were planted have rotted in the ground.

Tobacco. A correspondent from Georgetown writes: "Tobacco plants and fruit all killed; renewing our tobacco beds." The reports vary as to tobacco beds, although there are a great similarity to the one above. Where the beds were well covered, I there were a great many saved.

CATTLE. The number of two-year-old cattle that have been carried and sold has been put to grazing the coming season is fully up to, if not above an average to former seasons. There is an increase in percent over last year, per cent 98.

HOES. The number of hoes are smaller than last year, but an increase of lambs on account of the very mild winter, per cent 99.

HOES. Hog cholera has been prevailing in some counties. Many counties have had a great many; also Madison, Clark and others that I could mention. The number of sows for breeding purposes has increased since last year, which will begin to make up the shortage in the hog crop. All other kinds of stock are in good condition and looking well; no disease reported except in some few places; correspondents report disaster among the hogs; per cent 99.

NICHOLAS McDOWELL, Commissioner of Agriculture, April 9, 1894.

Chronic constipation, with all of its attendant evils, is cured by taking Ayer's Cathartic Pills. Sold by all dealers in medicine.

SAMPLE.

J. M. Mattingly was in Louisville last week.

Mr. Taylor Basham was circulating in town Sunday.

If you don't play checkers, you are decidedly not "in it."

Mrs. A. M. Jolly is at the bedside of her father, Mr. Jordan.

Miss Hattie Deane was in town Sunday visiting Mrs. E. Connor.

It is a notable fact that Mr. Arthur Mattingly is growing more "Jolly" every day.

Mr. Mac Robison and sister, Miss Mary visited relatives near Harlanburg Saturday and Sunday.

Mr. Eugene Connor and family are contemplating a visit to his sister at Alton, Ind., this week.

A crowd of young folks visited the Falls Sunday and paid Mr. T. H. Squires a friendly call.

Mr. Isaac Berman, the clever little peddler, was in our midst again Saturday smiling pleasantly upon us.

Mr. Marley Jordan is critically ill at the Jordan's near Clinton Mills. He is 84 years old and very feeble. No hopes are entertained for his recovery.

Miss Mollie McQuady will have a full stock of the latest styles in millinery goods in a short time. Call and see them before making your purchases elsewhere.

The News was mistaken a few weeks ago as to the whereabouts of Mr. Jose Miller. He is only at Sample in the city in his favorite pastime of playing checkers and hunting Robins, the latter of which he was very fond.

I am sure to see my prayer meeting become a failure. A few gathered there Sunday night, but there was no leader present, consequently no prayer meeting. It does seem as if they ought to be some christian people here to conduct prayer meeting regularly and to have a Sabbath school.

Impure Water.

One foul germ conveyed into the body by impure water, tainted food, or polluted air, may generate a pestilential swarm. The germs which are responsible for typhoid and malarial fevers will not find lodging in the system, if the stomach, liver, and bowels are kept in a condition of health by the use of Ayer's Sarsaparilla. Be sure to ask for Ayer's. It is the best.

Bright Spring Days.

The spring should be pre-eminently a season of contentment, happiness and peace. In these bright and pleasant months the country should enjoy its highest degree of tranquility and prosperity. But spring, it is well known, is often a period of discontent and disturbance in the physical system. Important organs of the body become torpid or irregular in their action, and the fact is instantly reflected in the mental condition of the individual. A disordered liver means disordered nerves and dull and uneasy brain. Any thing which will bring the physical system into harmony with the healthy state confers an enormous benefit upon the nation, besides the more playing of physical discomfort. Hood's Sarsaparilla does this, as thousands of grateful men and women can testify. An increased use of this standard spring medicine is of more real practical importance in promoting health and practical improvement of the world than runs of abstract theorizing.

GARRETT.

Mr. Cohen, the drummer, was in town this week.

Quite a crowd was in town Thursday to hear the new music.

Mrs. Henry Harrington of Brandenburg, was visiting Mrs. Hill Thursday.

A very large crowd attended the ball given at Mr. George Miller's Wednesday.

Mr. Creed Haynes, of Muldraugh, was in town Thursday night the guest of Mr. J. C. Crutcher.

Mrs. Crutcher and family spent Sunday at Mr. J. A. Hickets and family, of Brandenburg.

Mr. John Nevitt and wife, of Irvington, were the guests of Mr. Wm. Hill Thursday and attended the speaking.

After being confined to his room several days, with a broken limb, Mr. James Justice was able to be in town this week.

Several men of this vicinity went to Brandenburg Friday to hear the candidates make their closing speeches for this campaign.

Misses Lela, Martha and sister-in-law, Mrs. Crutcher, and Mr. Courtney Long spent last Monday with Mr. Frank Hill's family.

A. DINKEL, teacher.

Get Drashler Is In Luck.

Geo. Critt, Esq., April 6, partly of local capitalists, consisting of R. A. Brasher, John R. Hadley and W. M. Sills, have been putting down an oil well about eighteen miles from Louisville. The well was shot Monday and resulted in what will be about a 135 barrel well, although it is yielding twice that amount now. The owners are highly pleased at the result and have let the contract for another well on the same tract.—Indianapolis Journal.

HARNED.

Farmers are busy sowing oats.

We are having fine weather now.

Mr. J. H. Basham is on the sick list.

W. S. Payne has his new shop done.

W. D. Stacklons is all smiles. Its a boy.

E. M. Wilson returned from Louisville, Thursday.

Bill Otto, Irvington, Ky., was here on business, Friday.

Miss Mary Bear was visiting Miss Amy Basham, Sunday.

B. B. Payne, who has been sick for the past week, is able to be out again.

Art Goodman has gone to Hough creek, to get out railroad timber.

Miss Katie Pullen and Miss Cretie Nollman are here going to school.

Mr. Coffey, our clever postmaster, takes a walk down the R. R. very often.

What has become of our Parnassian Flat correspondent. Let us hear from you again.

Miss Amanda Payne is making preparations to go to Louisville. We hope she won't stay long.

Work has begun on the Baptist church here. We hope to have it completed in a short time.

It would be very wise for the ladies to bear in mind that if they take a general course of Ayer's Sarsaparilla in the spring, they will have no trouble with "prickly heat," "chives," "dies," "holls," or "black heads," when summer comes. Prevention is better than cure.

WEST VIEW.

Farmers are planting corn.

Mrs. Gus Lewis died on Monday the 14th, inst.

West View is improving her looks by erecting several new picket fences.

S. M. Henning went to Louisville last week to lay in his stock of spring goods.

Miss Beauty Roberts is teaching a three-months subscription school at this place.

Mr. C. Royalty started last week on another business trip, letting mail contracts.

Rev. F. R. Roberts, of West View, preached a good sermon at Mr. Zion last Sunday.

Dick Davis has taken charge of the blacksmith shop here and is doing a good business.

Died.

At his home in Andeville, on Thursday, April 5, Andrew J. Greenwell, one of the most substantial and most highly respected citizens of Menard county, Uncle Andy, as he was popularly called, was born February 4, 1821, April 30, 1848, he was married to Martha J. Miller, who survives him. They raised seven children to maturity, six of whom are now living. They have forty-five grand, and three great-grandchildren. He was the founder of the little village of Andeville. His community will miss him, and will miss his influence for good. He was a good man, a practical Christian, and his death will be mourned, not only by his numerous relatives and many friends, but by the entire community in which he lived.

Resolutions of Respect.

FOREWYLDER, No 600, F. & A. M. WREAR, God in the divine wisdom, has, by death, called from our beloved brother, John M. Smith, he is deceased.
